

# ADCO CIRCUITS

ISO 9001, AS9100, IATF16949, ITAR, UL, J-STD-001/IPC-A-CLASS 3

**ADCO Circuits is a full-service turnkey supplier of complex custom electronics (PCBAs and complete modules).**

- 40+ years history in the EMS industry
- ISO 9001, AS 9100, and IATF 16949 registered
- Interactive ADCOproto.com website for instant component and final assembly pricing for quick-turn prototypes.
- State-of-the-art material, documentation, and production planning systems for quick and repetitive execution.
- Advanced SMT equipment including Koh-Young solder paste inspection (SPI), Yamaha pick and place, Yamaha post reflow 3-D AOI, and X-Ray for fine pitch SMT and BGA components.
- Through-hole soldering via 2 Ersa select-wave lines and 1 Electrovert wave line.
- Automation throughout the plant, including component handling, paperless documentation, and robotics.
- Box build capabilities encompassing both plastic and metal enclosures, torque and FOD control systems, wiring, assembly, and test.
- Three engineers on staff for test design engineering and maintenance of flying probe, ICT, functional, and environmental test equipment.
- 53,000 sq. ft. environmentally controlled facility with ESD flooring and humidification.
